

A Row of Claustrophobic Men in a Hallway

A Schematic representation of the position of the first man in the hallway as it changes over time.

The number of times the entire cycle is completed in a given time period-- i.e. the number of times the movement from fig. 1 to fig. 9 is executed-- is called frequency. It is usually measured in cycles-per-second, or Hertz

The sound wave representation for an actual linguistic utterance is given below.

The name . 'Sue'
